ABOUT ME

- Build Automation framework from scratch and maintain:
 - Selenium, Appium, Serenity, cucumber JVM, cypress, playwright, katalon, robotframework,...
 - Integrated with utilities modules: Data driven, CI/CD, Reporting, Logging, XRay Test executions, Healeninum....
 - Generate report: allure, extent, cucumber, junit....
- Read and investigate SRS business documents, have testcase written capable in English, perform tests & login error- Knowledge of testing software such as phase testing software (Unit testing, Integration, etc.)testing, functional testing, system testing, acceptance testing, etc.) and technical testing.
- My SQL, SQL Server, setup apache superset display views queries statement from DB- Proficient in using Redmine, Test rails, Jira... error management tool- API Testing :Postman and build framework with Selenium ,Rest assured/ RestSerenity
- Performance Testing with JMeter, K6 and influxDB
- CI/CD with Jenkins, github action , gitlab CI -> deploy with docker and k8s- Lead of Qa automation team (10 members): build, training, coach, create, estimate and tracking task

WORK EXPERIENCE

FPT Smart Cloud

09/2024 - Present

AUTOMATION TEST ENGINEER

- Build automation framework: selenium, playwright, webdriver IO
- Set up CI/CD pipeline
- Reporting system
- Sumarize, report my and member's task to manager

SmartOSC

10/2023 - 09/2024

AUTOMATION TEST ENGINEER

- Hiring and build up automation team
- Creating sharing knowledge and automation course
- Discussing directly with customer
- Build and maintain, performance speed improvements automation framework
 - Serenity, Selenium, playwright, robotframework, Jenkins, Git, Docker, K8s

CMC Global

01/2022 - 10/2023

AUTOMATION TEST ENGINEER

- Participate in outsourcing projects in Singapore- Lead a teams include 15 members (training, report daily work, division of work, create and tracking task)- Build and implement automation framework for each projects- Auto testing mobile devices by appium + selenium
- Write testscript using selenium with POM patern- Setup CI CD: jenkins, github actions + github page, gitlab ci + Jest test- Auto API testing: rest assured/cypress/playwright/webdriverIO
- Inventigating and automating script - Data project: spark sql, build scala framework, data analytics, setup chart, dashboard from data into apache superset.- Setup parallel by selenium grid: container/k8s- Integrate Report into framework: allure, extend, cucumber

Magenest

MANUAL AND AUTOMATION TESTER

06/2020 - 01/2022

FPT SOFTWARE

1/2020 - 6/2020

- Make Test plan, write test cases, logbug, manage work on Jira
- Test API, Frontend, Backend, MySQL- Using automation tools: Katalon studio, Katalon record, Selenium IDS
- Automation testing with selenium java, selenium python, robot framework
- BDD cucumber, TestNG - Framework senerity

TESTER

- Read SRS business documents, be able to write testcases in English, perform test & log bugs - Having knowledge of software testing such as testing phases (Unit test, Integration test, Functional test, System test, Acceptance test, ...) and testing techniques. - Basic knowledge of SQL- Use the redmine bug management tool - Know test API and performance testing (Performance Testing) with basic JMeter tool
- The automotive system on Honda and toyota cars. Management of test devices
- Test based on the written testcase
- Write test plan, testcase
- Write guideline, training new testers in the project.
- Test devices management

PROJECT

Automation test course

2023 - Present

Mentor, super visor

Selenium, playwright, java, ts:

- As a mentor training about automation test
- course for all people, who want to learn, developer or manual tester move on, even newbie
- from scratch to junior level

Singapore Tax

2024 - 2025

Automation Test

- Participate in a government tax project
- Azure devops
- Tosca, Postman, applitool, NeoLoad

Cloud Infra

2024 - Present

Automation engineer

30:

Playwright, k6, gitlab:

- Product provide cloud service, can load balancing and auto scale with many features
- Build framework by playwright typescrip
- Integrate gitlab CI
- log result in xray
- performance with k6
- planing
- assign task
- resolve conflict & problem whole team

SuperApp

2022 - 2023

AUTOMATION ENGINEER

Malaysia, Singapore

30

Selenium, RestAssured, TestNG, Appium, Jenkins, Jira, Bitbucket:

- Investigate testing tech, automed transcripts, build and implement framework
- Build and run performance test with grafana k6
- Integrate k6 with grafana dashboard and prometheus database
- Build appium + selenim + restassured

Proudly Malaysia's homegrown lifestyle e-wallet app that is both secure and rewarding

Tax Free

AUTOMATION ENGINEER

Tax Free

2023 - 2023

Odoo - ecommerce

2022 - 2023

Booking - kiot spa

2021 - 2022

ACFC, Hoangphuc, bomsister,
Hino

2021 - 2021

Automotive

2020 - 2020

EDUCATION

08/2015 - 10/2020

Automation Engineer

Malaysia, Australia

30

Serenity, SerenityRest, Jenkins, Jira, Bitbucket:

- Build and implement Automation Framework for API using serenity,
- Integrated with utilities
- Setup Jenkins pipeline
- Automated transcripts

Official site offers full aspects and information of to shop Tax Free across Europe, The Americas and Asia.

AUTOMATION TEST

Singapore

30

Cypress, nodejs, javascript, gitlab, gitlabCI, Aws s3, allure report:

- Build and implement Cypress framework
- Integrated with utilities
- Setup Gitlab CI, Xray report
- Automated transcripts
- Cross border trading
- Manage products, vendors, packages, shipping

AUTO-MANUAL TEST

Vietnam

30

Serenity, Junit, Java, Github + github action, restassured:

- Create and executor testcases
- Automated scripts
- Build and implement framework: Selenium, TestNG
- Report test result
- Web and mobile app a both of ios and android
- Booking, order ticket in app and web
- Sync data realtime app and web

MANUAL TESTER

VietNam

20

Magento, Odoo:

Create testcases, executor test, cross review testcases, log bug and retest, report

- Ecommerce website luxury fashion
- Manage products, stores, delivery

MANUAL TEST

Japanese, Korean

20 tester

Jira, Xray:

Create, executor testcases. Cross review. Log bug and retest. Manage device

- Test Head Unit in car
- Bluetooth, AM/FM, apple car play, android auto
- Sensor, camera

OTHER SKILLS

Automation Testing

MAJOR: INFORMATION SECURITY

Academy of cryptography techniques

graduated as engineer degree

- Build automation framework from scratch
- Auto API and E2E testing
- Performance testing: Jmeter, Grafana K6
- Set-up data testing and reports
- Set-up CI/CD tools

Present

- Create slide and present

TeamWork And Leader Ship

- Working together to resolve problem and improve skills
- Manage and training skill for team members
- Create task and tracking
- Resolve conflicts within the team
- The ability to evangelize

Office Information Technology:

Proficient in Microsoft office tools

Design tools:

Designing website,app interfaces using figma software

Windows/Linux:

Install software, services, policies, fix common errors

Network:

split the lan/vlans, install and setup services on router, switch, firewall.
